

Project 01

A Survey of the History of Typography

Research + Design Presentations

Learning Outcomes

Identify, specify, and classify printing types and fonts of historical and cultural significance through completion of a final exam on typographic history.

Explain the significance of typographic history, with an emphasis on learning the ways in which typography, as a discipline, has been influenced by the economic, social and / or political conditions of a place and time, through participation in group research and presentation, submission of annotated project bibliographies, and writing of final project content.

Develop group dynamics / leadership / and effective communications. Become familiar with the history, purpose and intention of typographic form.

Develop the ability to present research in an effective manner.

Learn to position text within a modular grid and create variations in page layout in order to see the range of possibilities within a design system.

Survey of the History of Typography

Group Presentations

Students will be working in small groups or pairs for this project. Each group will be responsible for researching an assigned period of time in the history of typography. Groups will be responsible for preparing a short presentation that is inclusive of their research. Presentations will be designed to illustrate the significance of the specified period in typographic history. Presentations will demonstrate an understanding of the ways in which typography, as a discipline, has been influenced by the economic, social and / or political conditions of a place and time.

Each student will be responsible for presenting the essential information for their assigned topic to the class. The presentation will demonstrate their understanding of the evolution of typography. Questions from the presentations will be included in the Final Exam at the end of the semester and will be an assessment of your understanding of all the material covered in the presentation. Submission of entries [5 minimum] in your

annotated project bibliographies are required.

All cited research will take place outside of the internet. You may only use the internet to locate resources in print format and obtain a general idea of the topic to investigate.

A comprehensive study of the time period assigned will be produced. Each group will discuss **architectural styles**, significant works of art, social and cultural influences as well as technological breakthroughs that contributed to the development of typography for the assigned time period. Each presentation will include an adequate number of illustrations to support the key concepts. All references will be cited in a bibliography at the end pages of your presentation. Topics to be covered are listed under the time period assigned, however, you are not limited to these and additional topics are encouraged to be discovered.

A 20-30 minute digital presentation with visual examples will be produced. The content of your research will be formatted using a template for the layout of the presentations. The template will consist of a basic layout built in InDesign

Each student will be required to include in their annotated bibliography at least 5 readings that pertain to the time period of their groups presentation.

Final presentations will be on 10/12 and 10/19

Plan the content

Beginning

Introduce yourself and the others who are doing the presentation

Explain and put up the main points you will cover (e.g. as bullet-points)

Middle

Go through your points logically and in sequence providing illustrations that support your content.

End

Summarize
Give a conclusion
